

The Gillespie Approach Newsletter December 2021

STORY HIGHLIGHTS

10-Year-Old Suffers Concussion, and Mother Asks, "Can You Help Him?"

"I know the fascial web is still holding that trauma in his body. An untreated web may cause problems for his entire life."

—Dr. Barry Gillespie

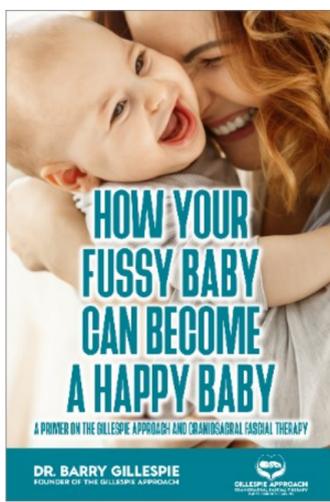

A mother recently emailed me: "My ten-year-old son experienced a mild concussion from falling off the top of a slide with an 8-10 foot drop. My daughter and I think he fell on his side and hit his head on the mulched ground."

Directly after the incident, he walked towards me as if he was drunk while holding his head and crying."

FREE E-BOOK! LEAVE A KINDLE REVIEW TO HELP PARENTS OF FUSSY BABIES FIND THE GILLESPIE APPROACH

In November's Gillespie Approach newsletter, we shared news about Dr. Gillespie's new short e-book, *How Your Fussy Baby Can Become a Happy Baby: A Primer on the Gillespie Approach and Craniosacral Fascial Therapy*.

This month, we're sharing news that this e-book is available on Amazon's Kindle service. Just as with Google and YouTube search engines, people are looking on Amazon's search engine for health information but, in this case, specifically to make a purchase.

If you enjoyed this e-book and want to help mothers and fathers find the Gillespie Approach to help with their fussy babies, your review would go a long way to helping bump this e-book higher up in search results.

Still haven't read this e-book yet? Click the button below to download this quick and image-rich read!

Thank you for your review and helping moms and dads—and fussy babies—find the Gillespie Approach!

TOPICAL HEALTH NEWS

Fascia Month: The Gillespie Approach Can Help You or Your Child Release Strain

This December, the Gillespie Approach is showcasing the fascia. The fascial web is a term used by Dr. Barry Gillespie in dozens of articles he's published on the Gillespie Approach website since 2011.

Learn all about how the fascial web is such a critical and overlooked area of health.
